

Bamboo Silica is considered today's fountain of youth! Bamboo Silica is found in the nodes of a bamboo tree. Bamboo is an edible grass that has been part of the diet of human and animals alike for thousands of years. Bamboo Silica has been used traditionally as a rich source of naturally occurring, organic silica.

Benefits

- Regenerates the skin, strengthens finger nails and beautifies hair.
- Helps to prevent premature aging.
- Increases the flexibility of body tissues and joints.
