

Vitamin C™ is a powerful antioxidant that helps to boost the body's immune system and it plays an important role in cardiovascular health. Vitamin C is needed for growth and repair of tissues in all parts of the body as well as formation of collagen. Collagen is a protein used to make skin, scar tissue, tendons, ligaments and blood vessels. As an antioxidant, vitamin C protects cells from free radical damage.

Benefits

- Promotes healthy teeth and gums
- Helps heal wounds and broken bones
- Boosts immune function
- Aids in iron absorption
- Helps form collagen and connective tissues
- Lowers blood pressure
